

```
<?xml version="1.0" encoding="UTF-8"?>
<!--ct version 1.1 RDF schema (Common Terminology version 1.1 )
    12/08/14 skos:Collection for CTSchema is changed into rdf:Bag
    11/17/14 detail definitions are modified.
    11/13/14 URIs are changed into ct.iopdl.org/1.1/.
    06/01/14 CT 1.0 is updated into 1.1 to solve the semantic error that points the same for 'other'
    sub-properties of different properties in rdfs graph.
```

Thus, in 'format' property, sub-property 'other' has deleted. In 'date' property, 'other' sub-property has changed into 'dateOther.'

In 'description' property, 'other' has changed into 'descriptionOther.' In 'identifier' property, 'other' has changed into 'identifierOther.'

Modified by Boaz Sunyoung Jin, and supervised by Professor David Dubin and Dean Linda Smith of Graduate School of Library and Information Science at University of Illinois at Urbana-Champaign-->
